HOW TO CONNECT WITH ANY ASDSO MEMBER

Online Membership Directory

**Step One: Login**

Go to damsafety.org

Click ‘Login’ in the top corner and enter your username and password.

On your portal page, find the section ‘My Membership’

Under this section click ‘search membership directory’

**Step Two: Searching**

On this page, you can search the entire membership directory.

You can search by: last name, first name, company, city, state, phone number and email.

You can search for one field or enter in as much information as you know. The more fields you fill in the more narrow the results.

For example: If you know someone’s first and last name but nothing else, you can search by first and last name. If you want to know everyone in your company who is a member, you can search by only your company name. If you want to see how many members are in your state with the first name John you could enter John then the state abbreviation.

**Step Three: Results**

The results will look something like this.

This was a search for the last name ‘Riley.’ It returned all members that fit that field.

Once you locate the specific member you are looking for, you can click ‘view’ to see their contact information.

**Step Four: Details**

Once you click ‘view’ you will be able to see all of the members contact information.

This includes: full name, company, title, email and their preferred phone number and address.

REMEMBER: The directory works best if you keep your information up to date! Don’t forget to update your profile on the login page!
